# Catalog

1. The tool is running on a server. Link to the fully functional web application: http://projedemy.org/
2. Code for the web app is in *education-hub* folder
   - This folder contains theme files obtained from WordPress framework (a thirty-party theme). The theme has been customized and some files were modified (such as functions.php)
   - It contains modified code in *job_manager* folder and *wp-user-frontend* folder (modified from existing plugins – "WP Job Manager" and "WP User Frontend")
   - It contains code that I developed for this project (folder name underlined).
        i. *SignUpProject*: contains a plugin I developed
       ii. *Snippets Codes*: need load from "Code Snippets" plugin
      iii. *Widget PHP* code: need load from "PHP Code Widget" plugin
   - It contains a Database backup under *db_backup* folder

3. Design documents in *design-doc* folder
4. Third-party WordPress plugins used in this project are not in this folder, but can be found online. Below is a list of used plugins:
   - code-snippets
   - display-posts-shortcode
   - link-library
   - members
   - php-code-widget
   - profile-builder
   - ultimate-member
   - user-role-editor
   - wp-job-manager
   - wp-pro-quiz
   - wp-user-frontend
